

# Understanding Your Electric Bill

All rates are regulated by the Florida Public Service Commission. Florida Power & Light Company works hard to operate efficiently, keeping your bills lower than the national average and the lowest in the state.

## Where Your Dollar Goes

Here's how a typical FPL residential customer's dollar is allocated.

The above graphical representations reflect estimations based on or relating to FPL's typical 1,000-kWh residential monthly bill as of January 2016. Estimates include the state gross receipts tax but do not include credits, local taxes or fees that may be applicable in some jurisdictions. Some figures have been rounded, and all figures are subject to change. Visit [FPL.com/rates](http://FPL.com/rates) for more information.
